Programme: Workshop on 'I' for Inclusion

Report of the programme :- (If required attach additional sheets)

This workshop aimed to promote inclusive practices in education by raising awareness about special students, showcasing specialized instruments and educational equipment, presenting various disabilities and their types, and engaging participant in activities focus on supporting special student. This is 2 day workshop on inclusive education.

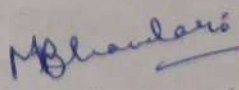

Day 1:

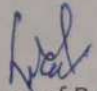

The programme started at 10:00 am. principle Sir gave me some information about inclusion and appreciate the resource person viz. Mr. Poonam Deoria and Mr. Shuzon Demelo. They gave us information about themselves and about special children. They took activities like blindfold, handcrafting, etc. With the mask, we covered our eyes and we had to do task that they were given to us. With blind folded eyes we were to find our friends, place, recognizes thing like spices, coins, words, drawing, etc. Also make boat by using only one hand.

Participating in this activities was a valuable experience, as it deepened by understanding of challenged faced by special students and importance of body parts.

Day 2:

The resource person Dr. Kasturi Kulkarni and Ms. Shuzan Demelo showed us instruments and equipments of special person. They demonstrated of specialized instruments and equipment used for special students. Also they discussed on how these tools facilitate learning and engagement for students with different abilities. After that they provided interactive presentation on various disabilities including physical, sensory, cognitive & learning disabilities. Also they discussed on the unique challenges & strengths associated with each disability type. The activities and presentation provided practical strategies and resources to create inclusive learning environments.

The two-day workshop on inclusive education help in awareness about special students, showcasing specialized instruments and educational equipments, presenting various disabilities & their types and engaging participants in activities focused on supporting special students. This workshop provided valuable insight, practical strategies & collaborative learning environment for educator & students.
