

ENERGY POLICY DOCUMENT

‘Whatever you are not changing, you are
choosing’

Chembur Education Society’s
C. S. S. Mahavidyalaya, Chembur.

Policy statement:

“ CSSM is committed to minimize our environmental impact and adopt energy efficient lifestyle.” The policy statement tell us how the energy consumption is perceived in the institution. Policy points us towards the concrete steps to be taken to translate the

Energy policy is an essential tool for promoting sustainable energy use and reducing greenhouse gas emissions. Energy policies and standards can help to guide our behaviour towards sustainable energy sources and practices. Institution promises to contribute in strengthening the government energy policy that aims to reduce ‘energy dependency’ which is currently 40%.

Objectives: The institution will,

1. direct all its efforts towards the reduction of carbon footprint.
2. ensure sustainable practices are being followed at the campus.
3. educate student teachers towards the national energy mission and the role they can play as teachers.
4. make the stakeholders aware about the energy consuming products and persuade them to switch to energy efficient products.
5. make the student teachers reflect and work on personal energy habits.
6. to respond to emerging environmental and energy issues.

This policy will be communicated to the students and employees via instituion dedicated notice board and will be made available to all the stakeholders on the institutional website.
